

Children with Hearing Loss

Goals

- to experience hearing loss :challenges it presents
- to be exposed to an audiogram: what it describes
- to understand how a cochlear implant works
- to learn some teaching and learning strategies to address those challenges

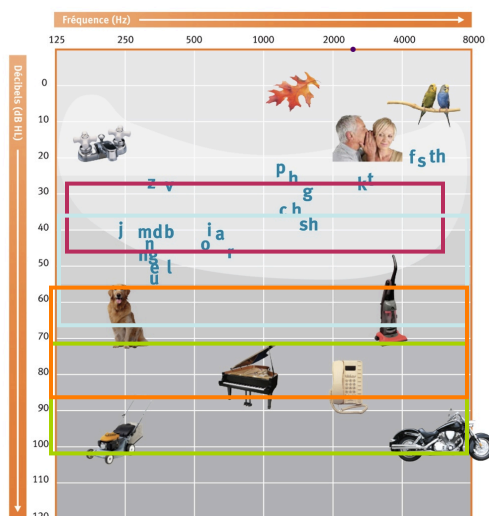

Types of Hearing Loss

How a cochlear implant works....

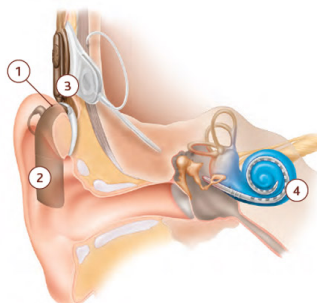

Hearing Loss: What does it Sound Like:

Hearing Simulation

Cochlear Nucleus 5
Sound Processor
CP810

Cochlear Nucleus Implant
C124RE

Cochlear Nucleus 5
Remote Assistant
CR110

So Now What?

- What teaching strategies do you already do that would support Kevin in his learning?
- Strengths and challenges
- IEP

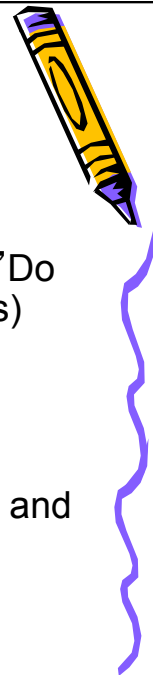

Helpful Hints for Effective Instruction: Structures

- Keep eye contact-try to avoid writing on the board,charts and talking at the same time
- Preferential seating
- Use visuals as much as possible: handouts, outlines

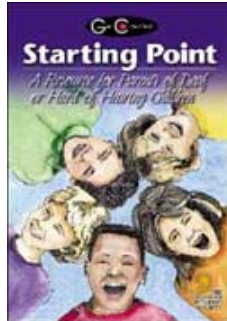

Helpful Hints for Effective Instruction: Learning

- Ask “tell me what you know” rather than”Do you understand” (avoid yes/no questions)
- Explicit teaching of new vocabulary
- Identify the topic, repeat questions asked and summarize whenever possible.
